

OFFICE OF INSPECTOR GENERAL

System Review Report

December 28, 2020

Michael Bolton
Inspector General
United States Capitol Police

We have reviewed the system of quality control for the audit organization of the United States Capitol Police Office of Inspector General (USCP OIG) in effect for the year ended September 30, 2019. A system of quality control encompasses USCP OIG's organizational structure and the policies adopted and procedures established to provide it with reasonable assurance of conforming with *Government Auditing Standards*. The elements of quality control are described in *Government Auditing Standards*. The USCP OIG is responsible for establishing and maintaining a system of quality control that is designed to provide USCP OIG with reasonable assurance that the organization and its personnel comply with professional standards and applicable legal and regulatory requirements in all material respects. Our responsibility is to express an opinion on the design of the system of quality control and USCP OIG's compliance therewith based on our review.

Our review was conducted in accordance with *Government Auditing Standards* and the Council of the Inspectors General on Integrity and Efficiency (CIGIE) *Guide for Conducting Peer Reviews of the Audit Organizations of Federal Offices of Inspector*. During our review, we interviewed USCP OIG personnel and obtained an understanding of the nature of the USCP OIG audit organization, and the design USCP OIG's system of quality control sufficient to assess the risks implicit in its audit function. Based on our assessments, we selected audits and administrative files to test for conformity with professional standards and compliance with USCP OIG's system of quality control. The audits selected represented a reasonable cross-section of USCP OIG audit organization, with emphasis on higher-risk audits. Prior to concluding the peer review, we reassessed the adequacy of the scope of the peer review procedures and met with USCP OIG management to discuss the results of our review. We believe that the procedures we performed provide a reasonable basis for our opinion.

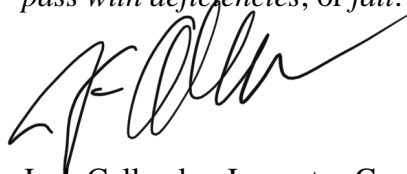

In performing our review, we obtained an understanding of the system of quality control for the USCP OIG audit organization. In addition, we tested compliance with USCP OIG's quality control policies and procedures to the extent we considered appropriate. These tests covered the application of USCP OIG's policies and procedures on selected audits. Our review was based on selected tests; therefore, it would not necessarily detect all weaknesses in the system of quality

control or all instances of noncompliance with it.

There are inherent limitations in the effectiveness of any system of quality control, and, therefore, noncompliance with the system of quality control may occur and not be detected. Projection of any evaluation of a system of quality control to future periods is subject to the risk that the system of quality control may become inadequate because of changes in conditions, or because the degree of compliance with the policies or procedures may deteriorate.

Enclosure 1 to this report identifies the USCP OIG audits that we reviewed.

In our opinion, the system of quality control for the audit organization of USCP OIG in effect for the year ended September 30, 2019, has been suitably designed and complied with to provide USCP OIG with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Audit organizations can receive a rating of *pass*, *pass with deficiencies*, or *fail*. USCP OIG has received an External Peer Review rating of *pass*.

SCOPE AND METHODOLOGY (Enclosure I)

We tested compliance with USCP OIG audit organization's system of quality control to the extent we considered appropriate. These tests included a review of three audit reports issued during the period October 1, 2016, through September 30, 2019. We also reviewed the internal quality control reviews performed by USCP OIG.

We did not visit the headquarters of USCP OIG in Washington, DC.
